EU produces record wind and solar energy as it shirks Russian gas

By Christian Edwards, CNN Published 6:01 PM EDT, Mon October 17, 2022

Where are we now

EU share of electricity generation (%)

2022
22%

Hydro
and nuclear

Wind
and solar
overtake

Gas
&
Coal

Other

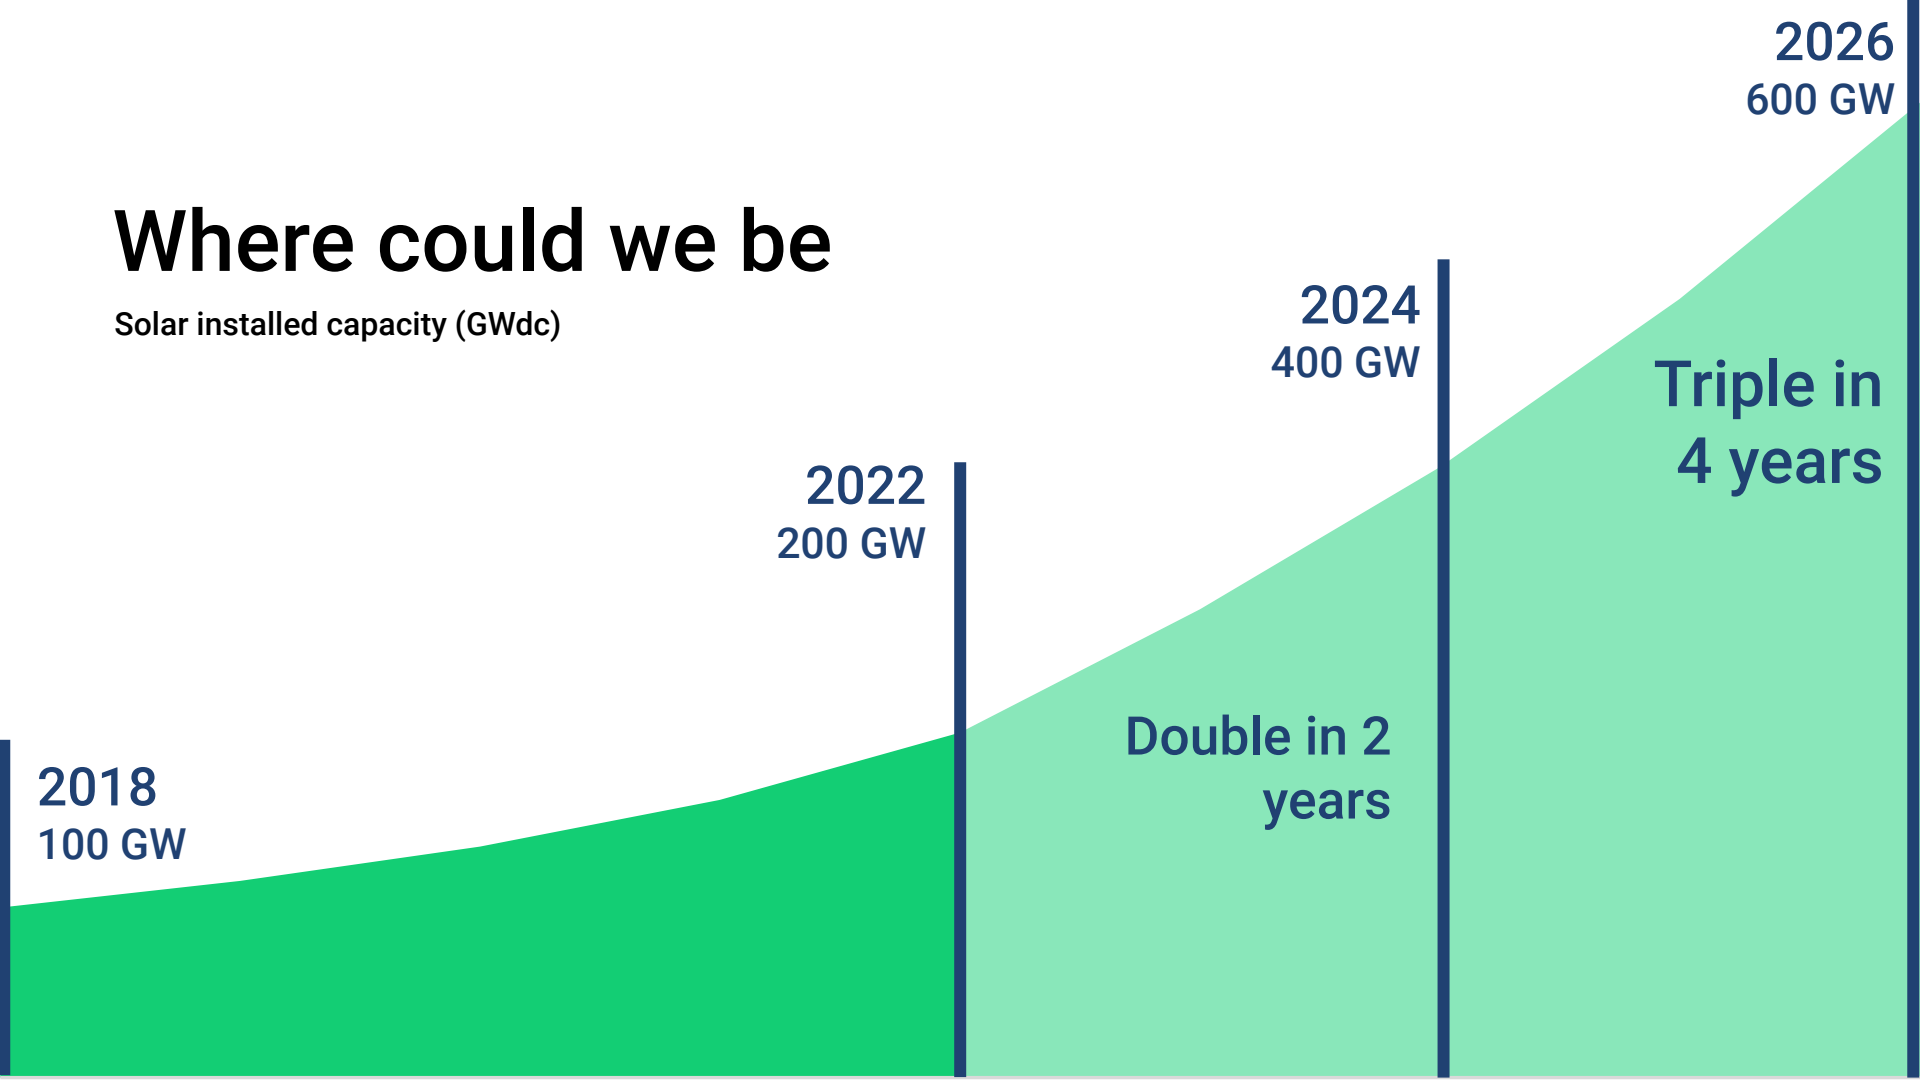

2019
17%

2000
1%

Where could we be

Solar installed capacity (GWdc)

2018
100 GW

2022
200 GW

2024
400 GW

2026
600 GW

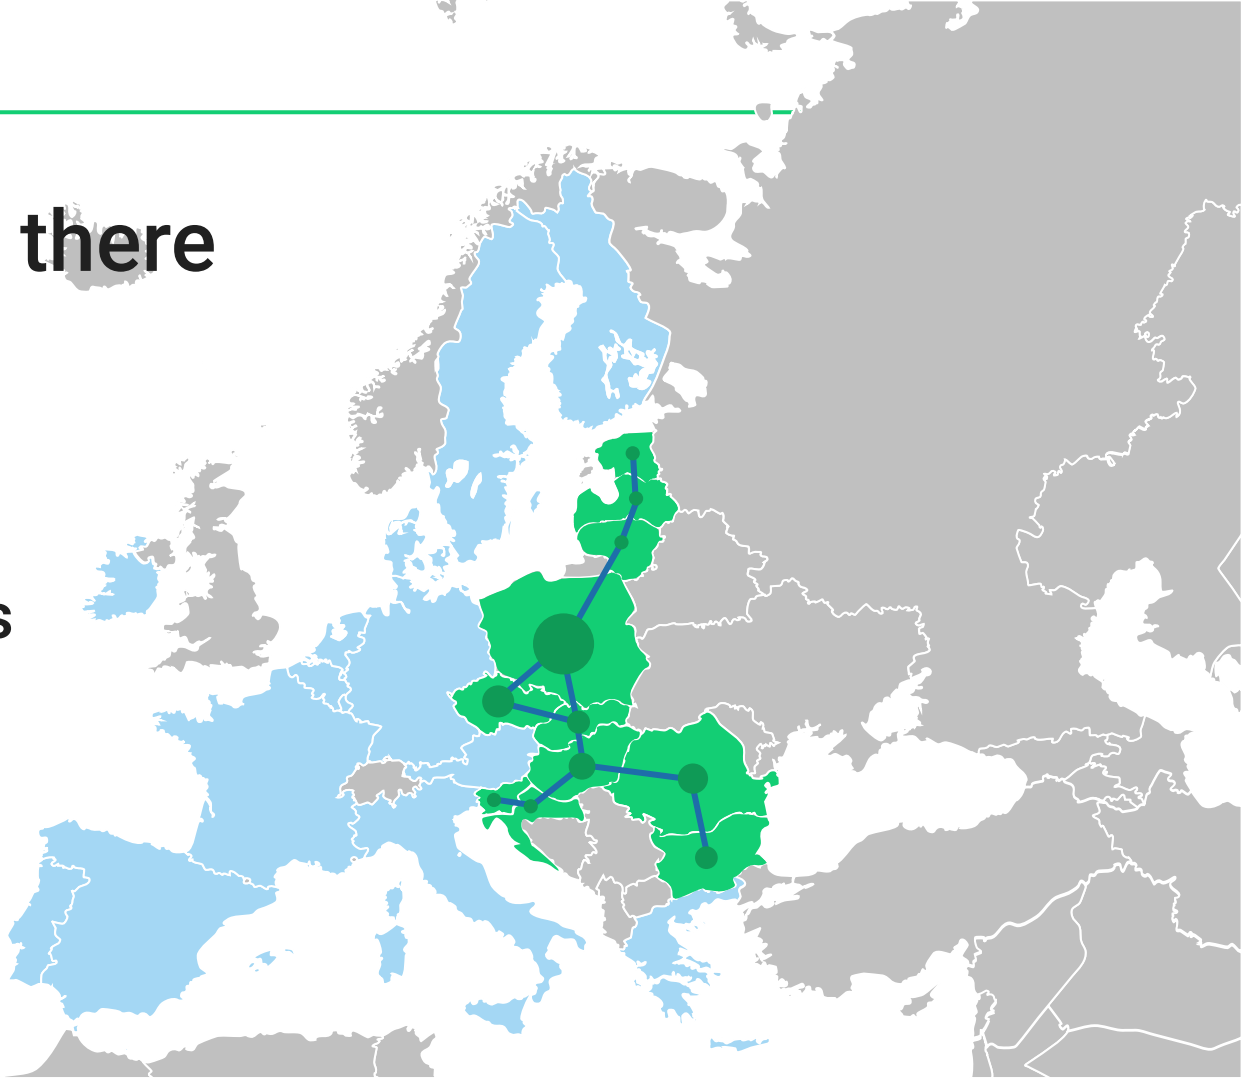

Double in 2
years

Triple in
4 years

How do we get there

A collaborative
region utilizing its
full potential

Key messages

01 Europe is heading towards clean power in 2030s

02 The CEE region can benefit from joining the clean power train

03 Collaboration is key to unlocking the full wind and solar potential

Thank you
