

Paradigm Shift in Sustainable Finance

CEE Sustainable Finance Summit 2023

Helena Naffa

Associate Professor, Corvinus University of Budapest
Director of the Sustainable Finance Research Centre

Recent Setbacks Spurring a Paradigm Shift

Our Current Research Topics

Research Topic

Research Goals

1. Literature Disambiguation

We aim to explain the contradictions in sustainable finance academic literature and disambiguate the mixed results in empirical findings.

2. Risk Management

Covering sustainability-related risks, climate risk, operational risk, liquidity risk, and green- and impact washing risk.

3. Implementation Strategies

Investigate implementation solutions for sustainable finance and applied ESG investing strategies.
